ART MEETS DESIGN AT ART X INTERIORUnique, timeless and trendy: Contemporary art at the STEININGER Showroom Vienna

VIENNA. ART X INTERIOR breaks the boundaries on experiencing contemporary art and design at the STEININGER Showroom in Vienna. This one of a kind art and design exhibition combines a curated collection from the international network of VELVENOIR and unique interior design concepts by steininger.designers.

The opening night of Art x INTERIOR, brought art lovers, architects, design enthusiasts and art collectors together to experience a unique symbiosis of interior design and art. The installation entailed a curated selection of fine art paintings, photography, exclusive kitchen and sculptures. The private viewing filled up rather quickly with a young and international clientele. International art consultants from the Netherlands, London, Paris and Salzburg, as well as the interior design and architecture team of steininger.designers were part of the evening to assist clients with regards to the exhibited works of art.

„This innovative concept is an open invitation to discover contemporary art outside of the ‚white cube‘ space, a special showcase of works of art within the ambience of an exclusive showroom“, says Alexandra Schafer, Managing Director, VELVENOIR.

An international array of museum standard established and emerging artists, such as Chen Ping (China), Olivia Steele (USA), Carl McCrow (UK), Jeremie Lenoir (France), Jos Out (Netherlands), Maria Louisa Hernandez (Chile), Heike Cornelissen (Germany), Javiera Estrada (New Mexiko), Dusica Pejic (Serbia) were presented. Room sets were further enhanced with specific pieces such as the bullets chess game made of weapons by Carl McCrow. *„They were carefully considered to compliment the interior design concept of the showroom“,* says Jürgen Hamberger, Creative Director, steininger.designers.
